EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with J. Phillip Polster on December 12, 2002.

The application has been amended as follows:

Claims 5-9, 12-13 and 15 have been canceled as being directed to non-elected invention group.

2. The following is an examiner's statement of reasons for allowance:

A review of applicants' arguments in amendment filed on November 20, 2003 and a review of the instant claims has convinced the examiner that the claims are allowable over the applied prior art of record. The prior art fails to teach or suggest that the adhesive is a cold flow adhesive which by definition flows at ambient temperature and in the absence of any external forces acting on it. Also, no evidentiary support could be provided to support the position that the instant claimed invention would have been obvious to one having ordinary skill in the art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
